EDEN

PELICANOS , MYKONOS

BREATHTAKING VIEWS OVER THE MEDITERRANEAN

Located on the south of the Island of Mykonos, Pelicanos has a unique location positioning itself between Paradise and Super Paradise beaches. It also offers splendid sea views, and a 180 degree view over the Aegean sea, which is literally breathtaking.

The infinity pool is placed in between the main house and the guest house, making it easily accessible for both locations. The comfortable lounging area and the dining pergola complete this space. The living room is spacious and presents itself in style and elegance. The kitchen is fully equipped with modern appliances and is easily accessible from in and outdoor. The guesthouse by the pool has a small living room and kitchenette to offer, all in the same high standard of the main house.
