EDEN

APARTMENT KILCO , VAL D ISERE

HIP AND SPACIOUS

Kilco is a splendid and new two bedroom apartment located in the very center of Val d'Isère, a few steps from the main meeting points and ski lifts as well as the shops and restaurants of the village. A fun design with plenty of space, Kilco combines contemporary and designer furniture with reclaimed wood doors and beams. Built in 2015, this Michel Covarel apartment provided an exciting and refreshing space to relax and enjoy.

We find comfort and fluidity of space in this 90 m² apartment with two bedrooms. It is located on the ground floor, and access is by lift or by stairs on the first floor. The apartment benefits from the light from all angles and offers a breathtaking view of the mountains of the Italian border as well as the Olympic track of La Face which leads to the village. The open-plan living and dining area includes a large square table that can easily accommodate friends for dinner, leather sofas, and a bespoke coffee table to pair with contemporary mountain design. The kitchen is fully equipped with charcoal gray worktops and concrete pendant lights that combine with the large fridge with freezer and dishwasher. A washer / dryer is located next to the covered car park and the ski room.

LAYOUT

Two beautifully designed reclaimed wood bedrooms spring from the entrance, both accompanied by walk-in showers and painted white finishes. One of the bedrooms is a bedroom with a fixed double bed and the other can be easily configured as a double or as separate beds. The apartment is perfect for four friends or a family of four for whom location and style are important.
